

A-SAFE

Sign Cap

Designed to support operational requirements and traffic management needs.

From Health & Safety notices to directing traffic, the sign cap supports your factory flow and processes. Using universally-recognized signage, it is positioned at the optimum height to be visible to both moving traffic and pedestrians.

The fully-customizable product seamlessly integrates into the A-SAFE product range, providing you with a comprehensive Health & Safety solution.

Compliant to the global benchmark in guardrail safety

bsi. PAS 13
Code of Practice for
Workplace Safety
Guardrails

Engineered for performance

Ultra-low maintenance ○ material is chemical and water resistant, non-corrosive and non-scratch so no cracking, rusting, flaking or corrosion.

Self colored and UV stabilized ○ for long lasting aesthetics with no repainting required.

H&S compliance ○ is emphasized ensuring workers and visitors are aware of safety procedures in the required locations.

Compatible sign ○ inserts are available separately to suit your needs.

○ **Double-sided label surface** allows the signs to serve dual purposes. Providing specific messages depending on the direction of approach.

Suitable for internal and external use.

Technical Information

Material Properties	
Temperature Range	-4°F to 122°F
Ignition Temperature	626°F to 770°F
Flash Point	645.8°F
Toxicity	Not Toxic
Chemical Resistance	Excellent - ISO/TR 10358
Weathering Stability (Grey Scale)	5/5*
Light Stability (Blue Wool Scale)	7/8**
Static Rating (Surface Resistivity)	Insulator (1 x 10 ¹¹ Ω/SQ)
Hygiene Seals	No

* Weathering scale 1 is very poor and 5 is excellent

** Light stability scale 1 is very poor and 8 is excellent
