

Engineered for performance

Ultra-low maintenance ○
material is chemical and water resistant, non-corrosive and non-scratch so no cracking, rusting, flaking or corrosion.

Self colored and UV stabilized ○
for long lasting aesthetics with no repainting required.

H&S compliance ○
is emphasized ensuring workers and visitors are aware of safety procedures in the required locations.

Compatible sign ○
inserts are available separately to suit your needs.

○ **Double-sided label surface** allows the signs to serve dual purposes.
Providing specific messages depending on the direction of approach.
